

FOSTEC Ventures is a private share company which focuses as a company builder on start-ups and SMEs in Europe. Our activities are cross-sector and we have a special affinity to the digital economy. As “Entrepreneur-Investors”, we don’t just provide the finance, we also actively apply our many years of experience as entrepreneurs and business directors. Therefore, the investment of capital is for us just the beginning of a systematic partnership of further development for the long-term success of the business. We are your gateway to entrepreneurial expertise and capital!
